SUBJECT: STATEMENT OF KNOWLEDGE OF MR. STEPHEN MUNGAI MBURU

I have worked alongside and supervised Mr. Stephen Mungai Mburu at JOOUST since January 2026, with direct visibility into his technical work, professional conduct, and character.

Technical Capability: Stephen is a developer supporting JOOUST's four live institutional systems —Postgraduate School portal and website, Centre for eLearning website, full Moodle LMS integration and customization (custom PHP plugins, SCORM, LTI, H5P, BigBlueButton, gamification, SSO). His gamification implementation delivered a 25% increase in completion rates. He is proficient in PHP, Laravel, Python, Flutter/Dart, and SQL.

Work Ethic: Stephen is proactive, reliable, and self-directed. He consistently delivers high-quality work without close supervision, meets deadlines, and resolves problems before they escalate.

Integrity & Character: I attest without reservation to Stephen's professional integrity. He handles sensitive data and credentials with discretion and care. He is honest, transparent, and trustworthy in all professional dealings — qualities I have observed consistently throughout our working relationship.

Recommendation: I strongly recommend Mr. Stephen Mungai Mburu for this role. His technical depth and personal integrity make him exceptionally well suited to a university developer position.

Yours Faithfully

Eddy Otieno

ICT Officer, JOOUST
